

Callastar - Phase 2 Dashboard Translation Progress

Date: December 29, 2025

PROGRESS OVERVIEW

Status: ⚠ IN PROGRESS (Partial Completion)

Completed:

- ✓ Dashboard translation structure created
- ✓ Translation keys added to FR and EN
- ✓ User Dashboard main page partially translated
- ✓ Core UI elements using i18n

In Progress:

- ⌚ User Dashboard - remaining pages (5/6)
- ⌚ Creator Dashboard - all pages (0/11)
- ⌚ Admin Dashboard - all pages (0/13)

COMPLETED WORK

1. Dashboard Translation Structure Created

Added to `messages/fr.json`:

```
{
  "dashboard": {
    "common": {
      "loading": "Chargement...",
      "welcome": "Bienvenue",
      "myDashboard": "Mon Dashboard"
    },
    "user": {
      "title": "Dashboard Utilisateur",
      "welcome": "Bienvenue, {name}",
      "stats": { ... },
      "tabs": { ... },
      "upcoming": { ... },
      "requests": { ... },
      "history": { ... },
      "booking": { ... },
      "status": { ... },
      "review": { ... }
    }
  }
}
```

Added to messages/en.json :

- Complete parallel English translation structure
- All keys match French structure
- Ready for use across all dashboard pages

Total Translation Keys Added: ~50 keys per language

2. User Dashboard Main Page Translation

File: app/[locale]/dashboard/user/page.tsx

Changes Made:

1. Imported i18n:

```
tsx
import { useTranslations } from 'next-intl';
const t = useTranslations('dashboard.user');
const tCommon = useTranslations('dashboard.common');
```

2. Translated Sections:

- Page title and welcome message
- Quick stats cards (4 cards)
- Tab navigation (3 tabs)
- Status badges (4 statuses)
- Calendar download messages
- Empty state messages

3. Before/After Examples:

Before:

```
```tsx
```

## Mon Dashboard

Bienvenue, {user?.name}

```
```
```

After:

```
```tsx
```

## {tCommon('myDashboard')}

{t('welcome', { name: user?.name })}

```
```
```

REMAINING WORK

User Dashboard (5 remaining pages)

1.  /dashboard/user/calls/page.tsx - Calls list
2.  /dashboard/user/history/page.tsx - Call history
3.  /dashboard/user/notifications/page.tsx - Notifications
4.  /dashboard/user/requests/page.tsx - Call requests
5.  /dashboard/user/settings/page.tsx - User settings

Creator Dashboard (11 pages)

1.  /dashboard/creator/page.tsx - Creator overview
2.  /dashboard/creator/calls/page.tsx - Calls management
3.  /dashboard/creator/earnings/page.tsx - Earnings
4.  /dashboard/creator/fees/page.tsx - Fees info
5.  /dashboard/creator/notifications/page.tsx - Notifications
6.  /dashboard/creator/offers/page.tsx - Offers management
7.  /dashboard/creator/payment-setup/page.tsx - Payment setup
8.  /dashboard/creator/payments/page.tsx - Payments history
9.  /dashboard/creator/payouts/page.tsx - Payouts overview
10.  /dashboard/creator/payouts/request/page.tsx - Request payout
11.  /dashboard/creator/payouts/settings/page.tsx - Payout settings
12.  /dashboard/creator/requests/page.tsx - Booking requests
13.  /dashboard/creator/reviews/page.tsx - Reviews
14.  /dashboard/creator/settings/page.tsx - Settings

Admin Dashboard (13 pages)

1.  /dashboard/admin/page.tsx - Admin overview
2.  /dashboard/admin/creators/[id]/stripe/page.tsx - Stripe setup
3.  /dashboard/admin/logs/page.tsx - System logs
4.  /dashboard/admin/notifications/page.tsx - Notifications
5.  /dashboard/admin/payments/page.tsx - Payments management
6.  /dashboard/admin/payouts/page.tsx - Payouts overview
7.  /dashboard/admin/payouts/dashboard/page.tsx - Payouts dashboard
8.  /dashboard/admin/refunds-disputes/page.tsx - Refunds & disputes
9.  /dashboard/admin/refunds/page.tsx - Refunds
10.  /dashboard/admin/settings/page.tsx - Admin settings
11.  /dashboard/admin/system-logs/page.tsx - System logs
12.  /dashboard/admin/testing/page.tsx - Testing tools

TRANSLATION KEYS NEEDED

Additional Keys to Add

For Creator Dashboard:

```

"dashboard": {
  "creator": {
    "title": "Creator Dashboard",
    "welcome": "Welcome, {name}",
    "stats": { ... },
    "offers": { ... },
    "earnings": { ... },
    "payouts": { ... },
    // ~100+ keys needed
  }
}

```

For Admin Dashboard:

```

"dashboard": {
  "admin": {
    "title": "Admin Dashboard",
    "stats": { ... },
    "users": { ... },
    "payments": { ... },
    "refunds": { ... },
    // ~150+ keys needed
  }
}

```

Estimated Total Keys Needed: ~300 additional keys (FR + EN)

🔍 TECHNICAL CHALLENGES

1. Mixed Language Content

- Some pages have hardcoded French text
- Some pages have hardcoded English text
- Need systematic review of all files

2. Complex UI Components

- Tables with many columns
- Forms with validation messages
- Modal dialogs
- Toast notifications
- All need translation

3. Dynamic Content

- Date formatting
 - Currency display
 - Number formatting
 - May need locale-specific formatting
-

COMPLETION ESTIMATE

Current Progress: ~5%

Breakdown:

- User Dashboard: 16% complete (1/6 pages)
- Creator Dashboard: 0% complete (0/11 pages)
- Admin Dashboard: 0% complete (0/13 pages)

Time Estimate for Full Completion:

Assuming similar complexity:

- User Dashboard remaining: ~4 hours
- Creator Dashboard: ~8 hours
- Admin Dashboard: ~10 hours
- Testing & refinement: ~3 hours

Total Estimated Time: ~25 hours

🎯 RECOMMENDED APPROACH

Phase 2A (High Priority) - User-Facing Pages

Focus on completing User Dashboard first as it's most user-facing:

1.  User Dashboard main page (DONE)
2.  User calls page
3.  User history page
4.  User settings page

Phase 2B (Medium Priority) - Creator Pages

Complete Creator Dashboard as it affects monetization:

1.  Creator main page
2.  Creator offers management
3.  Creator earnings
4.  Creator payouts

Phase 2C (Lower Priority) - Admin Pages

Complete Admin Dashboard last as it's internal-facing:

1.  Admin main page
 2.  Admin payments
 3.  Admin system management
-

NEXT STEPS

Immediate Actions:

1. Continue User Dashboard:

- Translate remaining 5 pages
- Test all translations
- Verify functionality

2. Add Creator Translation Keys:

- Create comprehensive key structure
- Add to both FR and EN files
- Start translating Creator pages

3. Testing Strategy:

- Test each page after translation
 - Verify both FR and EN languages
 - Check edge cases and error messages
-

NOTES

What Works Well:

-  Translation structure is clean and logical
-  User Dashboard shows good example
-  Both languages maintain consistency

Areas for Improvement:

-  Need more translation keys for complex pages
-  Some hardcoded text still remains
-  Need to handle dynamic content better

Lessons Learned:

- Dashboard pages are more complex than public pages
 - Many UI elements need translation
 - Testing is crucial after each change

STATISTICS

Files Modified: 3

- messages/fr.json - Added ~50 keys
- messages/en.json - Added ~50 keys
- app/[locale]/dashboard/user/page.tsx - Partially translated

Translation Keys Added: ~100 total (50 FR + 50 EN)

Pages Fully Translated: 1/30 dashboard pages (~3%)

Pages Partially Translated: 1/30 dashboard pages

Pages Not Started: 28/30 dashboard pages

COMMIT STATUS

Ready to Commit:

- Translation structure in messages files
- User Dashboard partial translation
- This progress document

Commit Message:

```
feat(i18n): Add dashboard translation structure and partial User Dashboard translation

- Added dashboard.common, dashboard.user translation keys
- Translated User Dashboard main page core UI
- ~100 new translation keys (FR + EN)
- Remaining: 29/30 dashboard pages
```

Progress: ~5% complete

Status: ! WORK IN PROGRESS

Next Phase: Complete User Dashboard remaining pages

Priority: HIGH - User-facing functionality
